Atish Pawar

Full Stack Developer | MERN and MEAN Stack | React.js | Angular | Node.js | TypeScript | MongoDB

Pune, Maharashtra, India | +91 8010122542 | atishpawar1193@gmail.com | linkedin.com/in/atishpawar28 | github.com/atish-2023 | atish-pawar-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building scalable, API-driven web applications with the MERN and MEAN stacks (MongoDB, Express.js, React.js, Angular, Node.js) and TypeScript. Delivered a live production CRM and 10+ reusable UI components across multiple products in Agile teams, improving page load times by around 25% and query performance by around 15%. Strong in REST API development, role-based access control, real-time data synchronization, debugging and working with QA to ship stable releases. Immediate joiner based in Pune.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Core PHP, HTML5, CSS3, SCSS
Frontend: React.js, Angular, Redux Toolkit, NgRx, RxJS, Tailwind CSS
Backend and APIs: Node.js, Express.js, REST APIs, GraphQL, WebSockets
Databases: MongoDB, MySQL, PostgreSQL, Firebase
DevOps and Tools: Git, GitHub, Docker, AWS, CI/CD Pipelines, Vercel, Render, Postman, Jira
Testing: Jest, Jasmine, Karma, Unit Testing, API Testing
Concepts: Performance Optimization, Debugging, SDLC, Agile

WORK EXPERIENCE

Junior Software Developer | Nadsoft, Pune | Apr 2026 - Jun 2026

- Developed 4-5 core modules of the Deposyt CRM using Core PHP, MySQL and Node.js, managing 1,000+ records.
- Integrated an AI assistant and third-party APIs to automate around 50 messages per day (around 350 per week) across 2 channels (SMS and email).
- Improved query performance by around 15% by optimizing MySQL queries and indexing across CRM modules.
- Collaborated with the QA team to test, verify and fix issues before every release.
- Shipped 2-3 releases by resolving around 100 defects through testing and debugging with QA and the development team.
- Contributed to the live Deposyt CRM deployment (app.deposyt.com).

Software Developer | Scalar TechHub, Pune | Jun 2025 - Mar 2026

- Accelerated delivery across 2 products by building 10+ reusable UI components (calendars, invoice interfaces, dialogs) with React.js, Angular 19+, TypeScript, NgRx and RxJS.
- Enabled full-stack delivery by working with 50+ API endpoints and 18-20 MongoDB collections (invoices, expenses, attendance, interviews) using Node.js and Express.js.
- Reduced page load times by around 25% by tuning MongoDB aggregation pipelines and adding server-side pagination.
- Supported 130+ concurrent users without lag by synchronizing data in real time with Firebase Realtime Database.
- Ensured stable releases by fixing 180+ defects over 10 months in an Agile team using Git.

PROJECTS

SprintDesk - Project and Bug Management Platform | React.js, Tailwind CSS, Firebase, Firestore | Oct 2026

- Built 10-15 screens for a role-based bug and task management app serving 5 roles (Admin, Project Manager, Team Lead, Developer, QA), each with its own dashboard and sidebar.
- Designed an 8-status bug lifecycle and a 4-stage task workflow, recording every status change with user, time and note for traceability.
- Modeled 6 Firestore collections with role-based security rules, and added daily bug counts by project and module and in-app notifications.

Deposyt CRM | Core PHP, MySQL, Node.js, REST APIs | Apr 2026 - Jun 2026

- Implemented RESTful CRUD APIs and activity logging across 50+ record types, giving a traceable history of record changes.
- Enforced role-based access control (RBAC) for 9-10 roles across 80+ API endpoints, protecting sensitive records.
- Launched the full-stack CRM live at app.deposyt.com through a 5-stage release process (Development to Production), enabling teams to manage records online.

SyncFlow - Workflow Portal | React.js, TypeScript, Redux Toolkit, REST APIs | Sep 2025 - Feb 2026

- Streamlined operations with 5 role-based dashboards built with React.js, TypeScript, HTML5, CSS3 and Redux Toolkit.
- Centralized 3 management modules (employee, client, vendor) covering 7-8 data entities through REST APIs.
- Eliminated manual data entry by automating 4 recurring workflows and adding bulk Excel import and export.

EDUCATION

Master of Science (M.Sc.) in Computer Science | Savitribai Phule Pune University | CGPA 8.17 | Aug 2024 - Jun 2026
Bachelor of Science (B.Sc.) in Computer Science | Savitribai Phule Pune University | CGPA 7.91 | Jun 2021 - Jul 2024

CERTIFICATIONS

- IBM Cloud Computing Fundamentals
